OFFICE INFORMATION

We understand that it may become necessary to make changes to the schedule. In order to accommodate the needs of our patients we require two business days notice in order to change your appointment.

We find that most of our patients have very busy schedules and need to pre-plan their dental appointments. Some patients have to wait three to four weeks for their visits; others are in discomfort and need to come as quickly as possible.

There will be absolutely no charge for your need to change your appointment as long as we are provided two working days notice. However, should something happen to prevent you from contacting us, there will be a charge according to the amount of time that was reserved for you.

Each person's situation is different and we realize that family, office emergencies and illness can arise. We will be pleased to discuss the details of short notice schedule changes on an individual basis.

As service to our patients we want to continue to bill your insurance company, however, due to the Privacy Act we are often unable to obtain our patients' personal information. If your insurance company will not provide our dental office with your insurance information, we are asking for your assistance. Please get in touch with your carrier personally, obtain your coverage and then relate the information to our office. We will then bill your insurance company directly.

Also, please note that any treatment your insurance doesn't pay or exceeds the limit of your individual plan will be your responsibility and billed directly to you.

The staff at Valley Centre Dental looks forward to taking care of your oral health needs and welcomes you and your family to our team.

I have read the office policies of Valley Centre Dental and fully understand my responsibilities as a patient.
